SUMMARY

Jonas Levis SOH KAMTE is a skilled backend Python/Django web developer with a passion for data analysis. With 1 year of experience, Jonas has expertise in Python, including libraries such as django, django rest framework, Pandas, SQL, Matplotlib, and BeautifulSoup. Currently transitioning to become a cloud engineer specializing in AWS, Jonas is adaptable, detail-oriented, and thrives in self-managed environments. With a strong foundation in frontend development using Angular and TypeScript, Jonas brings a comprehensive skill set to create seamless web applications. Seeking opportunities to optimize infrastructure on AWS, Jonas is dedicated, efficient, and committed to driving business growth through technology.

CERTIFICATIONS

ALX-UDACITY

Nano degree in data analysis.

July 2022 – November 2022

INTERNET SOCIETY

Introduction to network operation.

April 2019 – Mai 2019

EDUCATION

University of Yaounde 1 – Yaounde, Cameroon

Degree in computer science

September 2015 – July 2019

WORK EXPERIENCE

Python Developer

ESOAF – Yaounde, Cameroon

September 2021 -October 2022
